HOME RULE FOR CUBA

The Spanish Government Will Make Great Concessions.

ARRANGEMENTS ALMOST MADE.

No Definite Date Is Yet Fixed For Carrying Out the Reforms—General Maceo Announces His Determination of Breaking Through General Weyler's Lines. The Charges Against Rev. Diaz.

NEW YORK, April 21.—A dispatch to The World from Madrid says: The government of Spain has completed, barring a few details, its preparations for putting in shape the contemplated colonial reforms, Colonial Minister Castellanos asserts. No definite date is yet fixed for carrying out the reforms. The government will only decide upon dates after again consulting General Weyler. The colonial minister says that his frequent interviews lately with Premier Canovas were chiefly regarding statements to be made in the royal speech on the meeting of the cortes in May, with a view to exhibiting to the country the real state of affairs in Cuba, the cost of the campaign, the intentions of the cabinet respecting colonial autonomy and the relations existing between the Madrid government and the Washington government.

Much stress will be laid upon the necessity of continuing the efforts to improve the coast defenses of both the mother country and the colonies and of placing the army and navy on a better footing.

These declarations of the minister of the colonies are much commented upon. Madrid journals, the Liberals and the Republicans, freely express the opinion that the Cuban reforms are not likely to be satisfactorily carried out by the Conservative party, which has always fought them and contributed to the failure of the first and more comprehensive home rule bill of 1893.

NEWS REACHES WASHINGTON.

It Is Believed That the State Department Knows of Spain's Intentions.

WASHINGTON, April 21.—The Spanish government within the next four weeks will put into execution a comprehensive system of home rule or autonomy for the island of Cuba. There is good reason to believe that the state department has received from Madrid information to this effect. It promises to bring to a sudden termination the irritation and friction which has existed for many months between the United States and Spain and to replace this feeling with one of a friendly and amicable nature.

The law is very elaborate in its provisions. The element of home rule is secured by the establishment of two local bodies, drawn largely, if not entirely, from residents of Cuba. One of these is to be known as the provincial chamber of deputies, and the other as the council of administration. The latter has appellate jurisdiction over the former.

Large powers are granted to the council of administration in the management of public affairs, but the governor general will continue as the supreme representative of Spain on the island and will have direct charge of military, naval and international questions.

SPAIN IS POWERLESS.

She Can Not End the Cuban War by Her Own Unaided Forces.

NEW YORK, April 21.—A dispatch to The World from Havana says: If General Maceo succeeds in crossing the army barrier in spite of the 50,000 Spanish regulars pressing him on all sides, General Weyler must confess, as General Campos did, that the campaign is a failure and that Spain can not end this war by her own unaided forces.

The rebel general has sent word to his friends in Havana that he will break through the trocha when he is ready, and that when the first showers of rain fall the captain general's plans will turn to dust.

It is certain that General Maceo has some sure means of suddenly assembling his roving bands on this side of the trocha; some say by means of colored paper balloons and others by messages.

There is a belief that if General Weyler is out-manuevered Spain will presently welcome the friendly mediation of the United States. Even the Spaniards share his feeling.

Prisoners of war are condemned to death as incendiaries without proof of actual guilt. Evidence that a rebel soldier belonged to a column of the enemy which burned property is sufficient to insure his death. A prisoner's conviction depends on whether he joined the offending band before or after the incendiaryism occurred.

It is said that nearly 100 prisoners will be shot as incendiaries within a few days.

Charges Against Rev. Diaz.

WASHINGTON, April 21.—Information which has reached Minister Dupuy de Lome of Spain shows that the charge upon which Rev. A. J. Diaz, the Baptist minister, was arrested and incarcerated by the Spanish official at Havana was that of his being implicated in a contemplated uprising against the government on the outskirts of Havana. The prisoner will have a preliminary hearing to ascertain the truth of the offense with which he is charged.

Representative Black of Georgia yesterday called at the state department and talked with officials concerning Mr.

Diaz. After the interview Mr. Black said that there was no doubt that Diaz had taken out naturalization papers during his residence in this country and is a citizen of the United States. The state department, he said, will see to it that Diaz is given a fair trial and is accorded his rights as an American citizen.

WEYLER'S DISPATCHES.

The Same Old Story Told by the Censorship News Bureau.

HAVANA, April 21.—During recent engagements between the Spanish troops under General Fort, in this province, and the insurgents, the latter admit having lost 82 killed and 157 wounded.

Persistent rumors are in circulation here that Antonio Maceo is desirous of surrendering, but no unprejudiced observer places any belief in the reports.

At Jaguey La Grande, in the Remedios district of the province of Santa Clara, the insurgents have burned the machinery houses of the Rosario plantation, and they have destroyed by fire the railroad station at Gualaiano.

The splendid machinery houses of the plantation of San Narciso, near Guira Melina, this province, have been destroyed by fire, and the cane plantations of Loteria, Carmen and their colonies have been destroyed, with 22,000 tons of cane.

A dispatch from Matanzas says that the prominent autonomist leader, Artiz, has been arrested and imprisoned on a political charge, but after being some time in confinement he was released by order of the captain general.

It is now positively asserted that Perico Dellado, the well known insurgent leader, was recently killed in an engagement in the province of Pinar del Rio.

SMOOTH FORGER.

Retail Furniture Dealers of Indiana and Michigan Are His Victims.

CINCINNATI, April 21.—A smooth forger has been using the firm name of Street & Schmit of Cincinnati to victimize retail furniture dealers of Indiana and Michigan. He has secured almost \$1,000 on forged checks.

The fellow gives his name as S. Miner and claims to live in Newport, Ky. He carries samples of upholstering materials and a line of photographs of furniture; and represents himself as an agent of the furniture manufacturers named, whose factory is on Hopkins street opposite Lincoln park.

His plan of operation is as follows: He goes to dealers in small towns and takes large orders, as he offers goods at ridiculously low prices. Later in the day he will visit the place again and want a check cashed. He generally uses blank checks of the Fourth National bank of Cincinnati, and forges the name of Street & Schmit.

Street & Schmit keep no account at the Fourth National, and never saw S. Miner. They never had an agent of that name, and never receive the orders he takes. Miner always misspells the firm's name and writes it, Straight and Schmidt.

J. W. Redman of Dana, Ind., is the forger's last victim and was caught for \$87.75.

Mr. Street said Miner has forged their name to six checks in the last few months. He has also used the name of an Indianapolis firm, in the same manner.

FLOODS IN CANADA.

Many Houses Swept Away and Other Property Destroyed.

MONTREAL, April 21.—The floods in the St. Francis river valley at Sherbrooke and Richmond and on the river St. Lawrence at Three Rivers, Nicolet and other points, continue to do immense damage. The water in the St. Francis had begun to recede, but another rise took place yesterday and Richmond was again inundated.

One-fourth of the city of Three Rivers is under water and the authorities have 10 boats removing families from their homes. The electric light works are flooded and the city was in darkness last night. Traffic on the Drummond County railway is paralyzed through washouts and bridges being swept away.

Advices received at Sorel state that 24 houses were swept away from Lie de Grace and St. Anne.

JOCKEY JOE FOSTER KILLED.

First Fatal Accident on the New Queen City Jockey Club Course.

CINCINNATI, April 21.—The first fatal accident on the new Queen City Jockey club's course occurred in the third race at Newport yesterday. The race was at a mile with 11 starters. Jockey Joe Foster of the Ireland Brothers' stable, was on Tin Horn, who had the rail. In making the turn at the first quarter Tin Horn was jammed into the fence and fell with the boy under him. Foster was carried to one of the stable and sent to the hospital, where he died later. His face was horribly crushed and he received internal injuries. He was about 20 years of age, and lived at Nashville, Tenn.

In the fourth Buzetta, Frankfort Girl and Mabel M threw their riders at the post, but none of the jockeys were badly hurt.

McKinley Delegates Chosen.

NASHVILLE, April 21.—The Republican convention of the Fourth congressional district met yesterday in Lebanon, selected W. B. Pickering and J. M. Proctor district delegates to St. Louis and instructed them to McKinley. It also endorsed Evans, Rodgers, Caldwell and Jeffreys, McKinley men, for delegates from the state at large.

WIND AND RAINSTORM

Fremont, Ohio, Swept by a Destructive Tornado.

LIVES OF TWO PEOPLE LOST.

A Number of Others Injured, One Fatally, and a Vast Amount of Property Destroyed—The Damage Will Reach Fully One Hundred Thousand Dollars—A Pennsylvania Town Badly Damaged.

FREMONT, O., April 21.—A tornado, accompanied by a rainfall, swept over the northwestern part of Sandusky county about 3 o'clock yesterday afternoon, killing two persons, injuring a number of others and doing great damage to property. The tornado came from the northwest with great fury and every building it struck was swept away. After smashing a road bridge and blowing a big tree across a Wheeling and Lake Erie freight train it crushed the caboose and came near killing a number of trainmen.

The wind played havoc with farm buildings. The barns of Jacob Engler, J. Heffner, Upton Bergoon and Anthony Swintfirst went down before it. The house of James Green was destroyed. Green's father, William J. Green, was killed outright and his wife fatally hurt, and the baby carried across the road in its cradle. The child escaped uninjured. Next the barn of Amos Hetrick, in which Hetrick and John Low were shearing sheep, was crushed. Low was blown across a field against a tree, being instantly killed.

Other buildings destroyed were the barns of Al Fairchild, William Henset, Perry Parish, George Waggoner and Charles Tucker. Tucker's child was badly hurt.

At Booktown, a hamlet near here, nearly all the buildings were destroyed, but there was no loss of life.

The storm covered a wide track, and it is possible that further damage will be reported.

A large number of oil derricks near Kingsway were blown down and rendered useless. The damage in this particular alone will be very great. The damage in this locality will be fully \$100,000 to farm stock and property.

IT EXTENDS INTO PENNSYLVANIA.

Vast Destruction of Property in and Around New Castle.

NEW CASTLE, Pa., April 21.—The heaviest windstorm that has visited this city within the recollection of the oldest inhabitant occurred about 5:30 yesterday evening. The wind came up suddenly from the west and was accompanied by sheets of rain and lightning. For half an hour the rain fell in torrents and the wind blew everything loose that was movable. The streets were flooded in every direction and pedestrians found it difficult to get around.

Fences in every part of the city were blown down, great trees were uprooted and twisted and torn from the earth. There were many narrow escapes from death. The front of Charles Earle's West Side store was blown in just as he was at the transom endeavoring to close it and he had several teeth knocked out by the flying debris. The Central school building, one of the largest in the city, was completely unroofed, the same was the case with the West Side school and St. Mar, a parochial school building while the Catholic church suffered a similar fate.

The residence of M. E. Hanna was blown down, and the handsome residence of John Marshall had its roof blown off. Nearly every window in the west side of the large Shenango glass works of Knox, Fultz & Company were blown out, together with the sash. The new residence of Joseph Anderson was also wrecked. The large stable of the Fountain inn was raised about five feet and moved from its foundations.

It is believed that other and worse damage has been done in the country districts in the wake of the storm.

STATE TROOPS ORDERED OUT.

Circus Followers Create a Riot at St. John, Kansas.

TOPEKA, Kan., April 21.—Governor Morrill received a dispatch late last night asking that troops be sent to St. John, Stafford county, to quell a riot. The dispatch was signed by the sheriff and county attorney. The cause of the disturbance was not stated.

The governor ordered Adjutant General Fox to proceed to St. John at once, taking with him the company of militia at Newton. General Fox left on the midnight train.

Cause of the Riot.

KANSAS CITY, April 21.—A dispatch to The Times from Hutchinson, Kan., says the reported riot at St. John was provoked by followers of a circus, who, after swindling several susceptible Kansans, resisted the efforts that were made to recover the money they had taken. In the scrimmage that ensued the entire circus crowd was pitted against the citizens and officers. The trouble soon took on an aspect so serious that the sheriff telegraphed to Governor Morrill for assistance to put down the riot. Five men are reported to have been badly hurt. The details of the trouble can not be learned.

LONDON, April 21.—The Marquis of Bath died yesterday at Venice. He was lord lieutenant of Willis, a trustee of the British museum, and the national portrait gallery and honorary colonel of the Wilts Yeomanry.

FLUTTER IN STAMP BUREAU.

The Government May Quit Printing the Little Letter Carriers.

WASHINGTON, April 21.—It is said there is great agitation among the employees of the stamp printing branch in the bureau of engraving and printing over the agitation in congress to take the contract of printing the stamps away from the bureau and opening it to bids from private concerns. The argument is made that these employees will be thrown out of positions and will have to depend upon their families for support.

Very little has been said of the extra expense which has been put upon the government and the people to give these few clerks positions, and the treasury department, which controls this work now, in putting forth this argument is trying to appeal to the sympathies of congress rather than their common sense. No mention is made of the immense amount of money which has been required to furnish machinery and other appliances necessary for the government to go into the stamp making business, because if this was done it would at once show how much more it costs the government to make stamps than to have them made by outside contract.

Another thing which the treasury department is keeping exceedingly mum about is the remarkable increase in counterfeit stamps which are now almost daily flooding the country. Only on Wednesday last did the secret service officers of the treasury unearth a counterfeit gang in Chicago, who were manufacturing 2 cent stamps at an enormous daily output, and although the seizure was a clever piece of work, the treasury department did not care to have it published broadcast that such a thing as counterfeit bureau made stamps was possible.

EIGHT-HOUR DAY.

New York City Will Lead in the Movement and Few Strikes Will Occur.

NEW YORK, April 21.—New York will be practically free from the big eight-hour strikes which will disturb the country on May 1. It has so happened that New York, which has taken the lead in the eight-hour movement, has secured the eight-hour day quietly in nearly all building trades. Many other trades have also secured eight hours without a strike, and thus this city, on May 1, will be a favored spot.

President Harrison of cigar makers' union No. 144, who is also president of the state branch of the Federation said: "As it looks now there will be few, if any, eight-hour strikes in New York. The strikes will all be in the outside towns. Most of the members of the Brotherhood of Carpenters—the trade selected by the Federation to make the eight-hour struggle this year—have already the eight-hour work day. Many other trades, which have secured the eight-hour work day in New York, will have to strike for it in other cities."

"It is generally recognized that the displacement of men by machinery can be best met by shortening the working day. This rule has been lived up to better in New York than any other city. Other trades which have secured eight hours will have celebrations on or about May 1. They will chiefly take the form of indoor massmeetings. "When the strikes are started on May 1, a national eight-hour association will be formed. It will embrace all trades making the demand. Eight-hour strikes next year will be under the auspices and have the assistance and co-operation of this national eight-hour association."

Not Instructed.

NASHVILLE, April 21.—Yesterday in Clarksville the Republican convention of the Sixth congressional district selected H. L. W. Cheatham of Robertson county, and I. P. Rostrick, colored, of Davidson county, district delegates. The delegates are uninstructed. Delegates from three counties withdrew and will hold another convention in this city Wednesday. O. Q. Boyd, colored, of Clarksville was nominated for congress by acclamation. The convention was dominated by the colored delegates.

A Missing Newspaper Man.

POMONA, Cal., April 21.—Edward Sweeney has been missing from Pomona for a week and his friends and the police believe that he has been killed. Search has been made for the missing man since last Tuesday without result. Sweeney was very tall and spare, about 45 years of age. He came to Pomona last January for his health. He said he had been a newspaper man in New York and Chicago and showed several letters of introduction from prominent eastern journalists.

Fire in Indianapolis.

INDIANAPOLIS, April 21.—Fire which destroyed the Wright & Wright power-house yesterday burned out eight factory concerns. Falling walls crushed part of the Citizens' street railroad powerhouse and for two hours no street cars were running. Among the losses was Pierce's violin factory, including hundreds of prized instruments from all parts of the country. The total loss otherwise is \$50,000. Insured.

COLUMBUS, O., April 21.—While the two sessions of the general assembly were short considerable business was transacted. Notwithstanding that both houses have agreed to adjourn next Monday new bills are being introduced daily. Yesterday three new measures were introduced in the house. Some would be ambitious statesmen don't know when to drop on themselves.

Memorializing congress to pass the bill relating to the Torrence system of land tenure.

ADVICE TO MINERS.

Those Leasing Mines Will Be Asked to Give Them Up.

COLUMBUS, O., April 21.—The United Mine Workers' state organization proposes to make a vigorous effort to carry out the resolution of the national convention last week censuring the system of miners leasing mines and asking that the Shawnee and Hemlock miners abandon the system as soon as possible. There are several mines in that locality operated by miners under lease from the owners and they have done well, but the miners in general do not share in the benefits and are kicking. President Penna has gone to Shawnee for the purpose of addressing a mass-meeting of miners on the subject. He will ask the miners so operating mines to abandon them and allow themselves to be balloted into other mines for work.

A MAN out West claims he can make \$153 of gold out of 13 cents worth of metal by utilizing the X-rays. Now what will become of the poor silverites?

THE McKinley Republicans in Kentucky take great delight in rubbing it in on Governor Bradley. The Lexington Leader refers to his victory at the State convention as a "dog fall."

THE Ashland News remarks that Governor Bradley's race for Kentucky's instructions for President recalls Col. Lee's famous fox hunt. He always ran so far behind that he thought he was in front. The News was one of the Governor's professed ardent admirers only a few weeks ago, but things have changed.

ALTHOUGH the Bradleyites organized the recent Republican State convention, McKinley's friends were so numerous that they found themselves in a majority in the Committee on Resolutions, and forced the Governor's friends to give the Ohioan second instructions. Here's what the Associated Press says of the affair:

The platform was adopted without opposition, but it is an empty victory for the Bradley men, whose plan has been to give the delegates straight instructions. The McKinley men are jubilant over their success in forcing recognition from the faction which has controlled the convention from the outset.

The fight between the Bradley and McKinley men was waged unceasingly and the result is a dog fall. The Governor's friends organized the convention and secured the endorsement of his Presidential candidacy, but the McKinley men forced recognition of their idol in the instructions for delegates and broke the Bradley slate for delegates.

If the McKinley men had been asked at the outset to name their terms they would not have asked more, for they have at all times professed admiration for Governor Bradley, and a willingness to concede in the platform a recommendation of his fitness for the office of President and instructions carrying the State's vote, if the delegates were instructed to go to McKinley when Bradley's name is withdrawn.

LOST ALL

They Gained in Kentucky Last Election, Says Judge Denny—Bradley the Cause.

ST. LOUIS, April 18.—Judge Geo. Denny, of Lexington, Ky., is in the city, looking for headquarters for his State delegation during the Republican National convention.

Referring to Bradley's Presidential campaign the Judge said: "The great mass of Kentucky Republicans are for McKinley, but Bradley's shrewd manipulation of the machine has prevented them, in a measure, from giving direct expression of their sentiment.

"Bradley has inflicted such injuries upon the party that now we have very nearly lost all the advantages gained by the splendid fight we made last summer. I doubt if we can recover from the harm he has done us in time to be of any material benefit to the Republicans in the Electoral College this year.

MILTON LACY was drunk and disorderly and was taxed \$3 and costs in the Police Court Monday.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed in the Spring, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malaria poison. Headache, Indigestion, Constipation, Dizziness, yield to Electric Bitters. Only fifty cents per bottle at J. James Wood's drug store.

WARREN LARUE THOMAS.

An Honored Citizen of Mason County Who is Favorably Mentioned as a Candidate For Congress.

Mr. Warren LaRue Thomas, of this county, is being favorably mentioned by the Democrats as a suitable person to nominate against Hon. Samuel J. Pugh.

Mr. Thomas is a typical Kentuckian and possesses in an eminent degree the Jeffersonian qualifications for office, viz: honesty and capability. He was born and reared in Boyle County and has resided in this city and county for the last ten years or longer. He is a life-long Democrat and has never been known to falter in his allegiance to the cause. He is a Democrat from principle and mature conviction and has always cheerfully and enthusiastically, along with the "boys in the trenches," worked for the success of his party without the hope of reward in the shape of an office. He is not a politician in the common accepted meaning of the word and has never in a single instance asked for or sought after office. Mr. Thomas is esteemed by all who know him as a man of honor, integrity and intelligence. He is thoroughly practical and business like in his methods and has remarkably strong common sense and excellent general information on all subjects and a large and varied experience in a line which specially fit him for the position of a Congressman.

He stands high in church and State and socially. He is frank, plain and agreeable in manners, a splendid mixer with the people, a polished gentleman, a devout and active member of the Baptist Church and a person of recognized worth and scholarly attainments. He is well liked and is favorably known to the Democrats and people of the Ninth Congressional district and of the whole State.

While Mr. Thomas has not formally announced his candidacy, and probably will not do so, and would not in any event make a scramble for the nomination, yet we are reliably informed that if the Democratic party will tender him the nomination, with any degree of unanimity, he will accept and make the fight of his life to carry the banner thus placed in his hands and keeping to triumphant victory.

He will prove a popular and available candidate and by his own industry, skill and ability and the united efforts of his party, can and will redeem the district and would make a Representative of whom the party and the whole people would be justly proud.

Pittsburg Chronicle-Telegraph, 17th: "Much has been said and published recently about big shipments of iron and steel to Southern points, but very little has been written about the large and valuable cargo which the towboat Fallie, owned by the McKinley Coal Company of this city, is at present towing down the Ohio river. She has nine model barges of manufactured products afloat—the largest and most valuable tow ever handled by any Ohio river steamboat. The total value of the cargo is \$340,000, and Captain McKinley says these figures are correct. The towboat Ironsides, of Gray's Iron Line, he says, has a very big trip, but it is not as valuable as that of the Fallie. She had one barge of cotton ties loaded on the model barge Bayou Sara that is valued at \$65,000."

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at J. James Wood's drug store. Regular size 50c and \$1.

The Bemis Tobacco Setter.

The only successful transplant on the market, and stood the test during the dry season of 1895, where its competitors failed. A practical machine that any farmer can use, simply constructed and will last a life-time if properly cared for. Makes its own season, gets tobacco out earlier, starts quicker and more uniformly than hand planting. Will make its price every year in a small crop. See what the largest grower in the State says about it.

From Leslie Combs, Lexington, Ky.: This is to certify that I have used three different Tobacco Transplanting Machines upon my farm, and that I find the plants live so much better after the Fuller & Johnson "Bemis" I would buy no other. This opinion is formed from working all of these machines side by side through the entire season of 1895.

Every machine fully warranted to do satisfactory work in the field or no sale. To secure one of these machines orders must be placed early. For sale by

Bad News For Local Lovers of the National Game—Prospects For a Team Not Very Bright.

Here's bad news for local lovers of the great National game.

A week or so ago the outlook was encouraging for a first-class team here this summer.

The guarantee of \$100 a month, however, has not yet been secured, and the party who was the mainstay of last season's team has become so disgusted at the way some people have responded that he feels like quitting and having nothing more to do with the business. Citizens who would be financially benefited if a team is secured, haven't responded as they ought to.

Another thing. Good players whom the association expected to secure are demanding more than the local managers feel like paying.

The members of the local association are not in the business to make any money out of it. All they want is sufficient to carry the team through the season, and come out free of debt.

A good club would have a tendency to liven things up a little, and would unquestionably draw a good many people here during the season, but if Maysville is to have a team the people must come forward with the guarantee, and that pretty soon.

The Portsmouths wrote the other day, and wanted the Maysvilles to come up and open the new park, promising a crowd of 5,000. Further correspondence, however, brought out the fact that the Portsmouths evidently wanted the earth and the Maysville club thrown in. They offered only \$50 to play the game, and the Maysvilles would have to pay their own expenses.

Heilman is reported dissatisfied at Portsmouth, Va., and will likely be back in Maysville soon if a team is organized.

Secrest and Bailey are doing some good twirling in the Southern League.

SERVED HIM RIGHT.

A "Free Love" Preacher Given a Thumping by Angry Citizens of Pendleton County.

FALMOUTH, Ky., April 19.—Last night about 11 o'clock a crowd of masked men waylaid Theodore Bird, a so-called free love preacher, as he was returning from church and beat him up very badly with clubs, and told him if he did not leave the country by to-night they would lynch him. He left this evening on the north-bound train for Cincinnati.

Bird is the individual who has been preaching in this county all winter a new faith. He caused ex-Sheriff F. J. Fossett and wife to go crazy, it is alleged, and they had to be sent to the asylum. He is from Dayton, Ky., where he has a wife and child, who, it is claimed, he does not support.

The people of this county are wrought up to a high pitch of indignation, and if he had not left when he did he would have been lynched.

A SPECIAL from Vanceburg says: "Miss Nellie Plummer and two other girls were walking in front of the St. Charles Hotel Friday night when Miss Plummer stepped on a match. It flashed up and fired her skirts, the flames instantly running to her waist. Ed. Armstrong, proprietor of the hotel, at once seized the girl, and with his arms smothered out the flames, thereby saving her life. She escaped with but slight injury."

THE man with a weight on his leg can't hope to win in the race. A man with a weight on his health can't expect to compete in life and business with those who are not handicapped. If his brain is heavy, and his blood sluggish, because of constipation, he will not succeed in doing anything very well. Constipation is the cause of nine-tenths of all sickness. Symptoms of it are: sallowness, listlessness, poor appetite, bad taste in the mouth, dizziness, biliousness and lassitude. Constipation can be cured easily and certainly by the use of Dr. Pierce's Pleasant Pellets. They are not at all violent in their action, and yet they are more certain than many medicines which are so strong that they put the system all out of order. The great advantage of the "Pleasant Pellets" is that they cure permanently. CHARLES TILGHMAN HILLEARY.

A Tribute to Deceased From a Friend of the Family.

Human life is but a drama, varied, fleeting, now realistic, again misty, abounding in pantomime and shifting scenes; infancy the prologue, all the world a stage; the epilogue, dread, implacable, unerring death! One and all, we drag our given length of chain, the nearest links only within view; a Power above kindly poisoning, directing, leading, till the end!

Bearing on train our loves and treasures, this ceaseless pageant from cradle to grave moves on, with no stay of proceedings, no right of appeal. Manly promise, sterling worth, gentle bearing, avail nothing; neither a wife's pleading, nor mother's prayer, when the summons supreme is rung, from the other shore. Else, Charlie Hilleary's young life had not gone out so soon.

From 1868 to 1896 is brief space, but tells the story, in years, of his earthly dwelling; that of his inner and real life is graven upon the hearts of wife, mother, father,—is sacred, and not for us. A stranger's pen may tell of him only as he presented as man and citizen, in the home of his adoption.

The task is easy, and may well be brief, as sadly pleasing. For there's but one sentiment to voice,—that Charlie Hilleary, in every relation, was true to his lineage, his time, his manhood, in all that betokened a genial, soulful, honorable gentleman. With all this mirrored in his winning face,—genuine stamped upon feature and outlined in movement, he early won and firmly held, by right, the sincere esteem and regard of all about him. Measured by his developing capacity and irresistible magnetism, the hopes of his friends were most sanguine, his end most untimely.

It is simply true, and being true, is enough, that he was one whom, from whatever standpoint, 'twas a pleasure to know and cultivate; and having known, was yielded up with a pang. To the world as we find it, such natures are grudgingly given, and the benefaction seemingly repeated by the untimely recall.

It's consoling to believe that, in fact, there is no death,—only the soul's progression. In this—that henceforth each passing day but marks one journey more towards assured reunion—is balm for the widow's wounded heart, solace for bereaved mother and father, hope, cheer and inspiration for the orphaned little ones in life's coming struggles.

ALL ladies in Mason County, as well as in the city of Maysville, who feel an interest in the Daughters of the American Revolution and have a positive knowledge of their descent from a Revolutionary sire are invited to meet with Mrs. Blatterman, No. 15 West Fourth street, on Monday afternoon, April 27th, at 3 o'clock. The object of the meeting is to consider the formation of a chapter of the Daughters of the American Revolution.

THAT Vanceburg correspondent is sending out a lot of sensational stuff of late. Here's his latest:

VANCEBURG, Ky., April 20.—This morning Charley Smith, aged nine, took two little fellows aged three and six years, respectively, children of J. N. Thompson, into his mother's house during her absence.

He then got a revolver from a drawer, and said, "Now I'm going to kill you."

He fired twice at the little chaps at close range—one ball cutting through the shirt of the three, year-old's dress. He attempted to fire again, but the hammer was only drawn to a half cock, and this gave the children a chance to escape.

LOUISVILLE TOBACCO MARKET.

No Very Recent Change in Values For New Burley—Receipts Light.

The following is furnished by Glover & Durrett, of the Louisville Tobacco Warehouse:

Sales on our market for the week just closed amount to 3,793 hds. with receipts for the same period 1,420 hds. Sales on our market since January 1st amount to 63,965 hds. Sales of the crop of 1895 on our market to this date amount to 61,406 hds.

Receipts have been very light as a result of the recent unfavorable weather for picking the crop. A considerable percent. of the offerings have been in soft condition which has of course had an unfavorable effect upon values. There has been no very recent change in values for new burley in fair condition but the market has been somewhat higher for all grades of old burley from common to good leaf. The plant bed situation at this time is favorable.

The following quotations fairly represent our market for burley tobacco, (1895) crop:

Trash (dark or damaged).....	75¢ 1 50
Common color trash.....	2 00 4 00
Medium to good color trash.....	4 00 6 00
Common lugs, not colored.....	2 00 4 00
Common color lugs.....	4 50 7 00
Medium to good color lugs.....	7 00 9 00
Common to medium leaf.....	5 00 8 00
Medium to good leaf.....	8 00 15 00
Good to fine leaf.....	15 00 18 00
Select wrapery leaf.....	18 00 22 00

The above quotations are not applicable to green and frosted crops.

SUPERINTENDENT OF PUBLIC INSTRUCTION DAVIDSON has been busy sending out the poll sheets for the election of School Trustees all over the State, on the first Saturday in June. There will be two examinations of white and two of colored school teachers this year. The white teachers will be examined under the old law on the first Friday and Saturday in June, and on the third Friday and Saturday in June under the new law. The colored teachers' examinations will be held on the second Friday and Saturday and the fourth Friday and Saturday in June. The other examinations will be held in July and August. The different examinations in June are caused by the fact that the amendment to the common school law, as passed by the last Legislature, had no emergency clause, and will not be in effect until June 15.

THE TRIUMPH OF LOVE

"IS HAPPY, FRUITFUL MARRIAGE." Every Man Who Would Know the Grand Truths, the Plain Facts, the New Discoveries of Medical Science as Applied to Married Life, Who Would Atone for Past Errors and Avoid Future Pitfalls, Should Secure the Wonderful Little Book Called "Complete Manhood, and How to Attain It."

"Here at last is information from a high medical source that must work wonders with this generation of men." The book fully describes a method by which to attain full vigor and manly power. A method by which to end all unnatural strains on the system.

To cure nervousness, lack of self-control, dependency, etc.
To exchange a faded and worn nature for one of brightness, buoyancy and power.
To cure forever effects of excesses, overwork, worry, etc.
To give full strength, development and tone to every portion and organ of the body.
Age no barrier. Failure impossible. Two chapters references.
The book is purely medical and scientific, useless to curiosity seekers, invaluable to men only who need it.
A despairing man, who had applied to us, soon after wrote:
"Well, I tell you that first day is one I'll never forget. I felt reborn with joy. I wanted to tell everybody and tell them myself I had died yesterday, and my new self was born today. Why didn't you tell me when I first wrote that I would tell it this way?"
And another thus:
"If you dumped a cart load of gold at my feet I would not bring such gladness into my life as your method has done."
Write to the ERIC MEDICAL COMPANY, 101 N. Y. and ask for the little book called "COMPLETE MANHOOD." Refer to this paper, and to company promises to send the book, in sealed envelope, without any fee, and entirely free, until it is well introduced.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. Afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

to buy goods where everything sold is guaranteed to be just as recommended?

Don't You Want

Of Course You Do.

Then come right along. My house is headquarters for everything good to eat. I don't allow anybody to sell goods cheaper than I do. Every time you go away from home to buy anything in my line you lose money. You either pay more or get inferior goods.

And Don't Forget

that my PERFECTION FLOUR has no superior, and there is nothing better than my BLENDED COFFEE—as good as some people in town go to Cincinnati and pay forty cents for. My house is also headquarters for pure Northern Potatoes, Sweet Potatoes, GARDEN SEEDS, Onion Sets and Fresh Vegetables, in large or small lots—wholesale or retail. Come in, everybody. You are always welcome.
